Ocean carriers and NVOCCs must submit Importer Security Filing (ISF) and AMS data at least 24 hours before cargo is loaded onto a vessel bound for the U.S. This is known as the "24-Hour Rule".

Ricoh Logistics Corporation request Origin office to submit these datas at least 48 hours prior to departure from Origin Load Port (Origin Load Port refers to 1st Load Port, and does not mean Transship Port or Load Date)
